

Lyrics

Little Town America

Mark Peltier-Robson

Verse 1

There's a big water tower sitting on top of the hill.

Little town America they call Smallville.

There's a downtown store with a five and a dime

Get a cherry Coke, you don't wait in line.

There's a big water tower sitting on top of the hill.

CHORUS

In America, America - the place to be.

Little Town America - the place for me!

Verse 2

There's a little schoolhouse - 'round back of Mulberry Way.

All the boys and girls go over there each day.

To play dodgeball and jumping rope,

With little town joy and lots of hope.

There's a little schoolhouse - 'round back of Mulberry Way.

CHORUS

In America, America - the place to be.

Little Town America - the place for me!

Verse 3

At Billy's Barbershop you get more than a trim.

All the local folk stop by and gossip with him.

Local sports and the local news,

Different opinions and different views.

At Billy's Barbershop you get more than a trim.

CHORUS

In America, America - the place to be.

Little Town America - the place for me!

Verse 4

The cobblestone church has an old graveyard.

When the steeple bell chimes it's heard so far.

For those who marry, and those who pass,

Sunday morning it's time for mass.

In Little Town America - the skies are gentle blue!

CHORUS

We're in America, America - the best place to be.

Little Town America - the place for me!

There's a big water tower sitting on top of the hill. Oh Yeah!
It's Little Town America they call Smallville.

There's a big water tower sitting on top of the hill.
It's Little Town America they call Smallville.

....There goes Superman...

Smallville - that's the name of the little town
Smallville - Little Town America - yeah
