

Lyrics

Love You Softly

©2003 Michael Thiele /
Mark Peltier-Robson

Verse 1

I see you there and wonder, can tonight be the night by chance.
Will you bare your soul to me in search of true romance?
Will you finally find in me a love that's meant for you?
Love that's right - at least tonight - when shared by just us two.

CHORUS

Come take a chance and hold me through the night.
I'll love you softly - until the morning light.
Let's come together - everything's going to be all right.
I'll love you softly through the night.

Verse 2

My body aches - it trembles, the lights are turned down low.
With each kiss I can't resist - my passion starts to grow.
When we share our love as one, you'll know just what to do.
Take my hand, and understand - tonight it's me and you.

CHORUS

Come take a chance and hold me through the night.

I'll love you softly - until the morning light.

Let's come together - everything's going to be all right.

I'll love you softly through the night.

BRIDGE

Verse 3

Cuddle close beside me, embrace the time we've spent.

In my arms away from harm - your body is content.

Lying there you're smiling, knowing - yes, it's true

Our love is right - at least tonight - enjoyed by me and you.

CHORUS

Come take a chance and hold me through the night.

I'll love you softly - until the morning light.

Let's come together - everything's going to be all right.

I'll love you softly through the night.

I'll love you softly through the night.

I'll love you softly through the night.
